Innov-is NV800E

Large embroidery area

The large 160 x 260 mm embroidery area gives you a large embroidery area and a wide inner-arm space for large projects.

Colour LCD touch screen

Manage all the functions on the full-colour touch screen display and the touch sensor keypad. Editing features include layout, combine patterns, pattern rotation, size, mirror imaging and more.

Fast and accurate embroidery

850 stitches per minute embroidery speed.

Built-in embroidery designs

138 built-in embroidery designs including floral, seasonal, animals and much more.

Frame shapes

10 frame shapes and 14 border styles to allow those extra finishing touches to your embroidery.

Editing features

include layout, combine patterns, pattern rotation, size, mirror imaging and more.

11 built-in embroidery

Add a personal touch to your projects with a wide variety of built-in fonts. Ideal for monograms, names, sentiments, etc.

Fast-font editing

Easily edit text to suit your project. Designs can be arrayed; size, space and font can all be adjusted for each letter to give complete control.

Automatic needle threader

Simply follow the thread guide, lower the lever and the needle is threaded for you.

Quick-set drop-in bobbin

Drop in a full bobbin and you are ready to sew.

USB port

Connect a USB device such as a memory stick or a card reader/writer and load your embroidery design directly to the machine.

Fully automatic thread tension

Automatically adjusts thread tension.

Thread sensors

The Innov-is NV800E has upper and lower thread sensors that warn when thread is broken or has run out.
