**Cut Work Kit****€379.99**

Expand the creative embroidery options of your PR650 Series or PR1000 Series machine – with NEW cutwork capabilities!

This versatile kit upgrades both your PR-Series machine, and your existing PE-DESIGN® software, giving you the ability to create and customize beautiful embroidery cutwork. With this kit, you can set up your multi-needle embroidery machine to both embroider AND cut – without having to change needles in between. Use the included designs to embroider and cut beautiful appliqués, patches, and cutwork, or use the included PE-DESIGN® NEXT embroidery design software to create your own, custom cutwork designs! Customers must have PE-DESIGN® Version 5.0 or above in order to use the full functionality of this kit. For Use With: PR

PR Cutwork USB 2

Art. No. PRCWUSB2

Create exciting and elaborate creations with the PR Cutwork USB 2.

The designs from this USB include an array of delicate and elaborate patterns of approx 30 x 20cm as well as a smaller selection of floral patterns that harmonize with the letter fonts. The PR Cutwork USB2 takes embroidery and the items produced to a new level !!

Requires PR embroidery machine equipped with PR Cut work kit
