Create large embroidery designs with no need to re-hoop.

Free-arm embroidery

Embroider on shirt pockets, sleeves, jeans pockets, etc.

Thread colour sorting

Adjust the order in which multi-colour embroidery designs are stitched - reducing colour changes and minimising embroidery time.

USB ports

Insert a USB memory stick or connect directly to your PC to send embroidery designs to the VR.

Single colour pattern converter

Push one button to embroider a multicoloured design in a single colour.

20 built-in fonts

A wide range of built-in fonts to personalise your projects.

Large colour LCD touch screen

Easily edit and adjust embroidery designs, add lettering and resize from the touch screen.

Multiple line text input

Allows multiple lines of text to be entered without having to manually reposition.

Easy access to bobbin

Easily replace the bobbin without removing the hoop.

Independent bobbin winder

The built-in independent bobbin winder is quick and easy. Allows you to wind a new bobbin while the machine is embroidering.

Free-motion sewing and quilting

With the included free-motion embroidery kit, the VR can easily be converted to a free-motion embroidery machine. Add free-motion stippling to quilts to achieve a personal finish.

Needle threader

Push-button needle threader makes it quick and easy to get started on your next design. Simply follow the thread guide and press the button to thread the needle.

Built-in learning support

The on-screen guides take you through setup and basic operation to help you get the most from your VR.

Upper and lower thread sensors

Upper and lower thread sensors alert you when a thread is broken or has run out.

Multiple frame sizes

Enjoy a range of frame types and sizes, including tubular for T-shirts and towels, etc. Large frame for quilts, small portrait and landscape frames – perfect for vertical and horizontal pockets.
